

# The governance layer for your Microsoft 365

## The challenges you already know too well

### NO REAL M365 CONTROL

- Too many tools, no single truth
- Sprawl is growing & IT is stretched

### BREACH IN WAITING

- Data leakage & oversharing
- Permissions spiraling out of control

### MONEY IS LEAKING

- High storage cost
- Idle licenses

### RISKY AI ROLLOUT

- AI exposing sensitive data
- No confidence in AI output

## Syskit Point helps you control risk, cost, and AI in Microsoft 365.

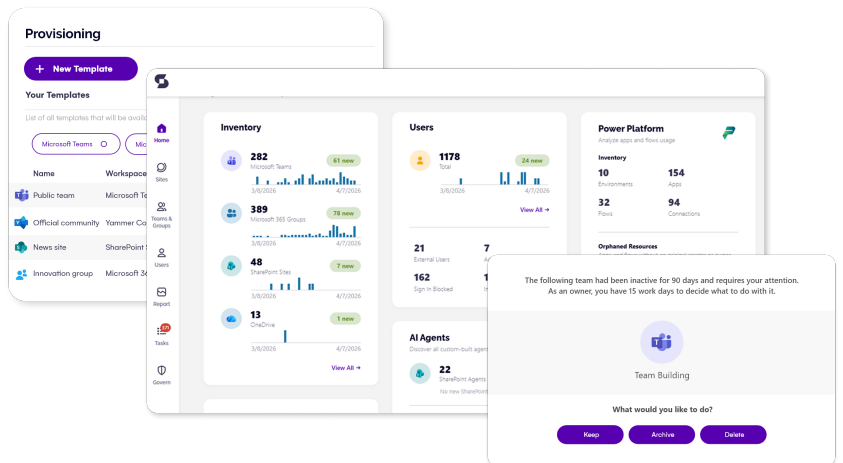

### Control M365

Run continuous governance from one place to keep your environment under control, without IT bottlenecks.

Gain centralized M365 visibility across Teams, Groups, OneDrive, SharePoint, Power Platform, Users, and AI agents.

Manage the entire workspace lifecycle, from provisioning to disposal.

Automate governance with policies and owner delegation so it runs itself.

**STADA** 30%+ reduction in admin workload

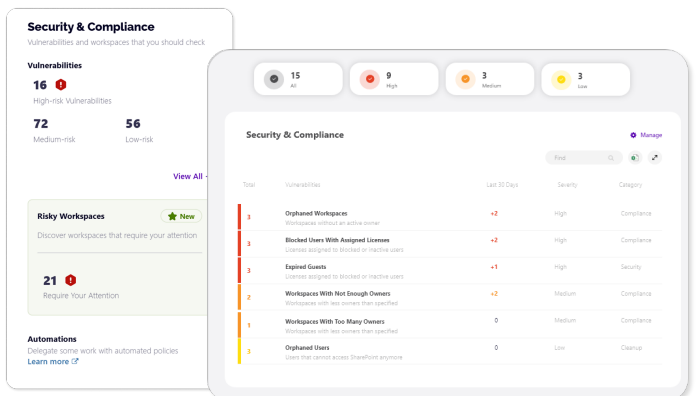

### Stay secure & compliant

Prevent data leakage, oversharing, and breaches. Pass audits without a last-minute scramble.

Take control of permissions to see exactly who has access to what and stop oversharing.

Ensure security, compliance, and audit readiness with automated checks, alerts, and reporting.

Meet data residency compliance requirements without compromise.

**LOTUS** 40% fewer compliance-related issues

## Optimize M365 cost

Cut unnecessary storage and licensing spend with immediate, measurable ROI.

Reduce storage costs and prevent bloat instantly with automated cleanup and archiving.

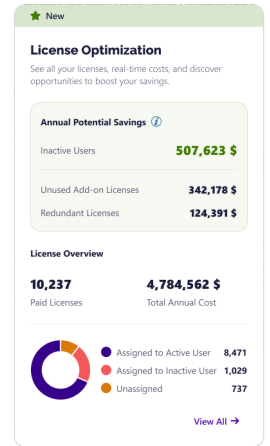

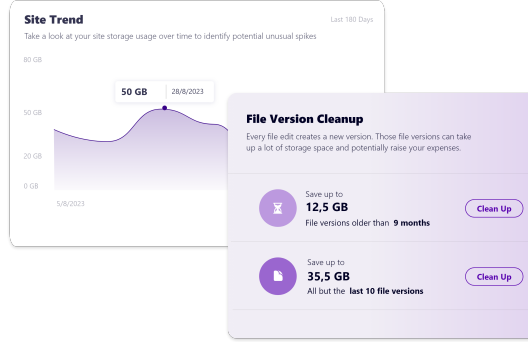

Optimize license usage and make confident renewal decisions with real-time visibility.

35% of all licenses optimized

\$24K in storage costs saved in under 60 minutes

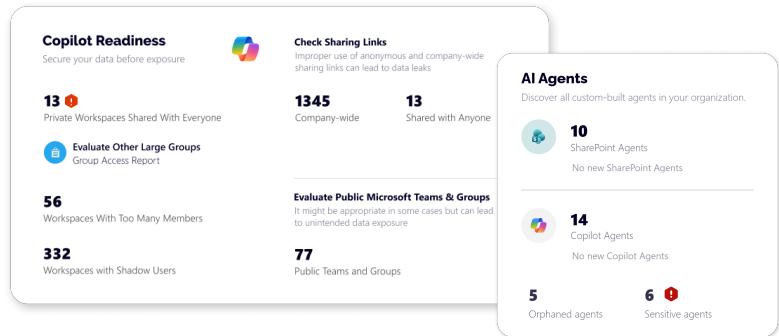

## Enable safe AI adoption

Control what AI can access – secure your sensitive data and trust every output.

Control AI agents across M365.

See what AI can access to safeguard sensitive data.

Ensure reliable AI output with clean, governed data.

## Simple to start, fast to adopt, easy to scale

### Streamlined deployment

One platform. No complex setup. No additional tools.

### Fast time to value

Full visibility into your M365 environment from day one.

### Always-on governance

Automated policies, delegated governance, and complete control.

### Simple scalability

Built to support growth without added headcount or loss of control.

## Syskit – expertise you can trust

**3M+** permissions removed annually

**3,800+** customers in 70+ countries

**16+** years of M365 expertise

**\$5M+** saved in storage costs in 2025

**5.5M+** active users
