# Product Features

## Have more control over your SharePoint environment

- › Get a complete overview of what users and groups have access to, detect all items with unique permissions, and prevent possible security breaches by controlling external sharing.
- › Quickly find differences in SharePoint permissions and detect unauthorized changes.

Name	Full Con...	Design
Accounts Payable Task		
Elwood Eskridge		
Fatima Zapata	✓	
Cara Coleman	✓	
Cheryl Garner		✓
Debra Berger		✓
Eleanor Atkins		✓
Ella Taylor		✓
George Potter	✓	
Ken Meyer		
Marsha Davenport	✓	
Megan Bowen	✓	

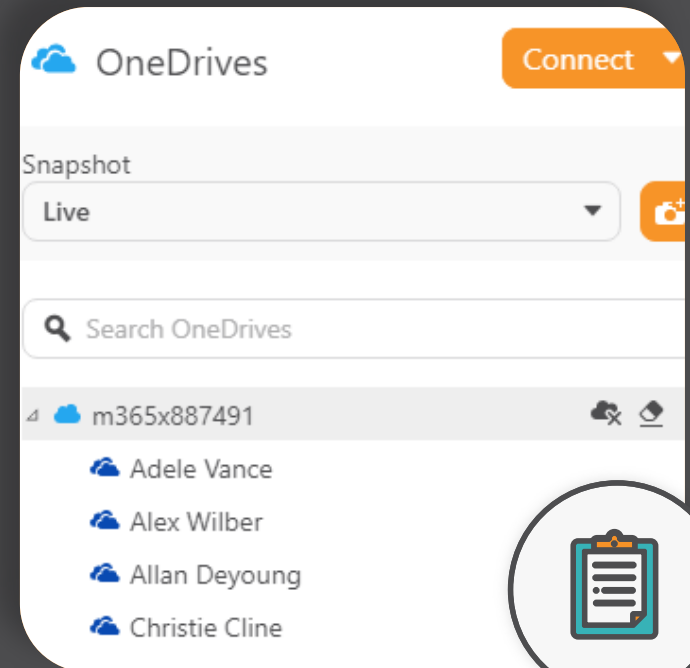

## Manage SharePoint permissions more efficiently

- › Manage SharePoint permissions and permission inheritance from a single interface.
- › Modify permissions quickly as users join or leave departments – grant, copy, transfer permissions in bulk.

## Ease administration of Office 365 groups, Microsoft Teams and OneDrive

- › List all Office 365 groups and Microsoft Teams in the tenant and get an overview of each group's and team's owners and members.
- › Check consumed storage and activity of each OneDrive on a selected tenant.

## Annual Subscription

Starting at  
**\$2499**  
per Admin\*

- ✓ A license is required for each user running the app
- ✓ \*Licensed per SharePoint admin, consultant or any business user managing permissions.
- ✓ Valid for one year with the support and product upgrades included.

//

*You can approve access requests for site collections, create new users and groups, move users and groups around, break inheritance and re-inherit and run all sorts of reports on your site collection.*

//
